Mikron Service Solutions

Mikron Service Solutions is offering a new “miRemote” package (remote support management system). Regardless of the location of your machine, Mikron specialists or your own machine operators can access the system in a matter of seconds. The “miRemote” connection allows you to check all relevant information, statuses, failures, etc. and perform diagnostics and solve most of your software problems, remotely.

OUR SERVICES

- Instant access to machine specialists
- Secured access for suppliers (loader and peripherals)
- General maintenance of the “miRemote”:
 - Regular hardware upgrade
 - Regular software upgrade
- Log-in access for one user (additional user +200.-)

One yearly fee includes all of the above services. For Helpdesk support costs please see Mikron rates or “miSupport” packages.

YOUR BENEFITS

- Reduce machine downtime
- Your machine operator has the capability to access the machine at any time and from anywhere
- Access to machine diagnostics
- Increase support coverage globally without onsite interventions
 - No technicians’ travel costs
 - Reduction of billed working hours
 - Shorter reaction time
- Access to latest security standards
- Capability to manage your machine data if equipped with miS4.0

Contact your Service Center today. We gladly be of assistance.
